

**ATTILA 85**  
**If ATTILA can push it over – it will cut it !**

**Robust**

**Chassis**  
 Etesia's ATTILA 85 has a strengthened welded tubular chassis. The side-discharge steel deck plus blade protection system ensure reliability.

**Powerful**

**Hydrostatic transmission**  
 Hydrostatic transmission gives variable speed to enable the operator to adjust to the prevailing conditions. An easy to engage differential lock provides extra traction in difficult terrain.

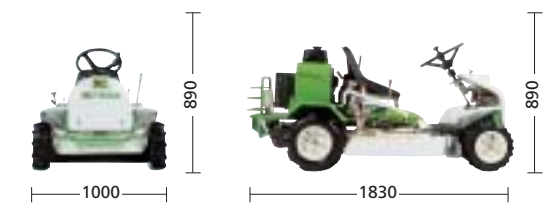

**Stability**  
 Low centre of gravity, plus long wheel base and agricultural tyres give added stability and traction. ATTILA 85 can be used on slopes up to 30 degrees.

**Cutting system**  
 The 85 cm cutting width plus swing or fixed-tip blades produces high productivity.

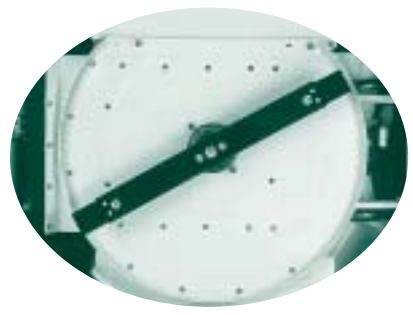

**Comfortable**

**Electric Start**  
 Central cutting height adjustment plus rack and pinion steering make the ATTILA 85 brushcutter easy to operate.

*Technical specifications*

AK 85	
Engine	KAWASAKI 14 PS – 423 cm³
Weight	250 kg
Cutting width	85 cm
Cutting height	50-60-75-90 cm by central lever
Blade	7 mm thick with 2 swing tip blades
Mower deck	2 mm steel
Blade clutch	Mechanical
Ejection	Side-discharge
Chassis	Tubular welded frame
Forward	Hydrostatic
Forward speed	V : 0 – 8 km/h – R : 0 – 4 km/h
Parking brake	Mechanical
Tyres with agrarian profile	F : 7 x 35 – R : 16 x 7.8
Blades	MC 85 : blade for ATTILA 85

*With its extremely low centre of gravity, manoeuvrability and powerful 14hp engine, the ATTILA 85 is ideal on slopes, woodlands rides and infrequently cut areas on dense vegetation and brushwood.*
