

Pro 51 K  
+ Grass box TU51E

# pro 51

*Ideal for any grass condition*

*Compact and easy to use the PRO51 from ETESIA is ideal for a wide range of grass conditions with its large blade brake system and variable speeds.*

## Fully adjustable

### Central handlebars

Adjustable handlebars without the need of tools. Allows easy access to the grass box from either side of the machine.

### Controls

Centralised controls on handlebars.

### Cutting heights

Central cutting height adjustment system from 25 to 88 mm.

### Front bumper

Removable front bumper.

## For all types of grass

### Variable speed

Variable speeds from 2.9 to 4.1 kph to adapt to any work conditions.

### Safety

Large blade brake system stops the blade in 3 seconds after release of operating lever.

### Grass Box (option)

Compact 72 litres grass box with full indicator.

## Built to last

### Cutting deck

Pro 51 cutting deck is moulded in one aluminium part.

### Engines

ETESIA's Pro 51 mowers includes the choice of 2-stroke and 4-stroke engines.

- PRO 51 B  
4-stroke BRIGGS & STRATTON 6 hp engine.
