

2009

HUNTING OPTICS CATALOG

Whether you're bowhunting in a stand, ranging a long distance shot across a canyon or simply shed hunting for the next big buck, there are dependable Nikon optics to give you the advantage in your pursuit.

Continuing off of the success of last year's award-winning EDG (pronounced "Edge") binocular line, Nikon brought the entire EDG platform to Fieldsopes. The new EDG Fieldscope series delivers the same remarkably bright, clear, high-resolution images thanks to new dielectric coated prisms and a wider field of view with larger 85mm and 65mm objective lenses.

EDG

Also new this year is the remarkable Monarch X binocular. Ingeniously engineered for all hunting situations with Nikon's advanced dielectric high reflective multilayer prism coatings for superior optical performance, especially at dawn and dusk when game is really moving. The new Monarch African Series riflescopes give dangerous game hunters everything they need to make fast shots with hard charging game.

Already heralded as one of the most innovative sighting aids in the last 25 years, the Nikon BDC reticle continues to win over professional hunters and weekend warriors alike. For 2009, Nikon continues to bring the BDC to more and more applications—the new patent pending BDC Predator Hunting reticle and Coyote Special riflescope series give predator hunters their very own long distance companion.

Nikon leads the way in sport optics because we continue to get real-time, real-world advice from some of the best hunters in the world. The feedback we get from the Nikon ProStaffers you'll see in this catalog inspires us to build and create the next optical product—whether it needs to be lighter, faster, brighter, stronger or more intuitive. We're always on the hunt for the next big idea.

Whether you're bowhunting in a stand, ranging a long distance shot across a canyon or simply shed hunting for the next big buck, there are dependable Nikon optics to give you the advantage in your pursuit.

Several Nikon Pro Staffers enjoyed a successful whitetail hunt.

New For 2009

No other optics company develops as many pursuit-specific optics choices as Nikon. And 2009 will be no different as we launch our exciting new line of EDG Fieldsopes, our first riflescope line developed exclusively for dangerous game hunting in the Monarch African series and the predator-specific Coyote Special riflescope. Also new, you'll find wider view Omega and SlugHunter riflescopes and the Monarch X binoculars, featuring advanced dielectric high reflective multi-layer prism coatings for outstanding optical performance, especially during the critical dawn and dusk periods.

Nikon stands behind its products by offering the best consumer protection in the shooting sports industry.

At Nikon, we believe the best warranty is one you'll never have to use. For this reason, we crafted the Nikon Lifetime Full Warranty, which provides confidence on those rare occasions when something goes wrong. If any Nikon riflescope is found to have defects in workmanship or materials, we will, at our option, repair or replace it at no charge, even if you are not the original owner. No time limit applies and no warranty card is required.

If your Nikon binocular, spotting scope or Fieldscope requires service or repair not covered by our 25-Year Limited Warranty, Nikon will repair or replace it—even if it was your fault—for just \$10, plus return shipping and handling.

Nikon Inc. warranties and no-fault policy cover products marketed and sold in the U.S.A. only. For complete details visit NikonSportOptics.com

A man in camouflage gear, including a hat and jacket, is smiling and holding the antlers of a large buck. The buck is lying on the ground in a forest setting. The man is wearing a camouflage hat and jacket. The buck has large, impressive antlers. The background is a dense forest with trees and foliage.

Cameron Hanes—Editor, Eastmans' Bowhunting Journal

NIKON EDG BINOCULARS

EDG is the first hunting binocular to harness the optical superiority of Nikon's highly acclaimed ED (Extra-low Dispersion) glass to push the limits of optical performance. This exclusive glass was developed for Nikon's legendary Nikkor camera lenses, for increased resolution and color contrast. Nikon EDG binoculars offer the same results to the world's most serious hunters—high contrast images that are razor sharp and extremely bright.

ENGINEERED TO PUSH YOUR HUNTING TO THE EDGE

- **Legendary Nikon ED (Extra-low Dispersion) Glass Lenses**
Deliver superior sharpness and color contrast for unmatched detail resolution.
- **Dielectric High-Reflective Multilayer Prism Coating**
Extraordinary technology delivers uncompromised low-light performance.
- **Advanced, Fully Multicoated Optics**
Multiple layers of anti-reflective compounds on every glass surface for bright, vivid images.
- **Sophisticated Design**
New ergonomic construction balances perfectly in the hand for extended hunts.
- **Dual Focus Knob with Locking Diopter Adjustment**
A quick, central focusing knob has been paired with pop-up diopter adjustment for speed and convenience.
- **Horn-Shaped Detachable Eyecups**
Ergonomically contoured eyecups block out peripheral light for a clear field of view.
- **Long Eye Relief with Ratcheting Eyecup Adjustments**
Allow for a full field of view, with or without eyewear.
- **Lightweight, Rubber-Armored Body**
Delivers superior ruggedness that is still easy to hold in any weather.
- **Thumb-Position Memory Contours (42mm models)**
Provide optimum traction with soft-grip tactile surface.
- **Magnesium-Alloy Body**
New body cuts weight without sacrificing durability.
- **Waterproof/Fogproof Optical Performance**
O-ring sealed and dry nitrogen filled to handle the toughest conditions. (Up to 10 minutes submersed at 16.4 feet)

Quick and Smooth Central Focusing Control...

...Pulls out for Diopter Adjustment—In for Focusing

When you want absolute cutting-edge performance for any hunting conditions, the 42mm Nikon EDG could be called the ultimate choice. Delivering extremely bright, high resolution images thanks to Nikon's ED glass lenses, this model represents the pinnacle of Nikon technology. Rugged waterproof/fogproof performance in an ergonomic body design.

EDG 7x42, 8x42, 10x42

Part #7560 (7x42); #7561 (8x42); #7562 (10x42)

Built with the same rugged, waterproof/fogproof integrity, the 32mm Nikon EDG is for the hunter looking to shed even more weight on the hunt. Long eye relief with ratcheting eyecup adjustments, high-performance body materials for a better grip in any condition and the same fully multicoated lenses as big brother. All housed in a sleek, fast-handling roof prism body.

EDG 8x32, 10x32

Part #7563 (8x32); #7564 (10x32)

Nikon EDG Binoculars

Exceptional Styling Contrasted by Uncompromising Durability

Objective Lenses Sculpted from Nikon's Coveted ED (Extra-low Dispersion) Glass

The Ultimate Testament to Form, Function and Performance

Complete specifications on page 52.

NIKON EDG FIELDSCOPIES

The incredible, high-resolution performance of the EDG binocular is now available in a remarkable new EDG Fieldscope line. The new EDG Fieldscopes offer the same ED glass lenses and dielectric coated prisms* as their binocular counterparts, delivering extraordinarily high contrast images in a sleek, redesigned Fieldscope body. Larger, 85mm and 65mm lenses allow you a wider field of view.

- **Nikon's Exclusive and Legendary ED (Extra-low Dispersion) Glass Lenses**
Deliver superior sharpness and color correction for unmatched detail resolution.
- **Dielectric High-Reflective Multilayer Prism Coating***
Extraordinary technology delivers uncompromised low-light performance.
- **85mm and 65mm Objective Lenses**
Deliver an expansive field of view so you can catch more of the action.
- **Fully Multicoated Optics**
Multiple layers of anti-reflective compounds on every glass surface for bright, vivid sight pictures.
- **High Grade Optics and Multicoating Technology**
Carefully cut and polished glass is coated in multiple layers of anti-reflective compounds for bright resolution and brilliant color.
- **EDG Eyepieces**
Both models include a zoom eyepiece and are compatible with optional eyepieces.
- **Sliding Sunshade and Vue-Thru Case**
Protects your investment in any situation.
- **Straight and Angled Body Versions**
- **Waterproof/Fogproof**
Nitrogen filled and O-ring sealed.

**EDG Fieldscope 85mm
Angled body**

Optional Eyepieces

Nikon offers two additional eyepieces for the EDG Fieldscopes. A Long Eye Relief 25x model designed specifically for applications where quick-looks through the eyepiece are necessary such as for benchrest shooting, or when sharing the scope with others. The 30x model is a medium power eyepiece popular with many scope users for its brightness and resolution.

Part #8295 (30x EDG Eyepiece)

Part #8300 (25x LER EDG Eyepiece)

Introducing the new king of full-sized Nikon Fieldscopes. The pro-level EDG 85mm provides the ultimate in optical performance thanks to Nikon's exclusive ED lenses and dielectric coated prisms*. A rugged waterproof, fogproof new body design and full compatibility with the new line of EDG eyepieces allows you to take this new Fieldscope on the most demanding hunts in the world.

EDG Fieldscope 85mm

*Part # 8292 (Straight body w/ 20-60x zoom eyepiece),
#8293 (Angled body w/ 20-60x zoom eyepiece)*

Supreme ruggedness and a larger 65mm objective make this Fieldscope the perfect choice when you're counting every ounce in your pack, yet still need to see every detail on the hunt you've been planning for years. The new EDG won't disappoint, delivering extraordinarily bright, high-resolution views and truly remarkable low-light performance. All waterproof and fogproof in a stylish, lightweight new body design.

EDG Fieldscope 65mm

*Part # 8290 (Straight body w/ 16-48x zoom eyepiece),
#8291 (Angled body w/ 16-48x zoom eyepiece)*

*Dielectric coatings are only necessary on roof prisms. Not applicable on angled body models.

Ralph Cianciarulo—co-host of Archer's Choice Television

NIKON ARCHER'S CHOICE LASER RANGEFINDERS

The Nikon Archer's Choice is truly the bowhunter's rangefinder—specifically designed and engineered with the help of Ralph and Vicki Cianciarulo of Archer's Choice for real world bowhunting situations. This rangefinder features Nikon's ID Technology for even the most extreme shot angles, with legendary multicoated optics, waterproof/fogproof ruggedness, pocket-sized portability and long eye relief (18mm).

▪ **Nikon's ID Technology**

Nikon's advanced ID Technology compensates for various incline or decline shooting angles—up to an incredible ± 89 degrees (nearly vertical up or down).

▪ **Displays in .2 yard/meter Increments (out to 100 yards/meters)**

In ID Technology mode, calculated horizontal distance measurements are displayed in increments of .2 yard/meter. (In standard mode, distances are displayed in .5 yard/meter increments.)

▪ **First Target Priority Mode**

Allows confident ranging of objects as small as a fence post or to get an instant reading on that lone buck in the meadow.

▪ **Easy-to-View Uncluttered LCD Display**

For fast, easy ranging, even in bright sunlight.

▪ **Bright, Multicoated 6x Optics**

Nikon's legendary optics and proprietary anti-reflective coatings offer high-resolution images under virtually all lighting conditions.

▪ **Single Button Operation**

For fast, easy measurements. Automatically powers down after 8 seconds to reduce battery use.

▪ **Ultra-Compact Size**

Fits in a pocket or pack, and can be worn on a belt without interfering with your shot.

▪ **Mode Button**

Allows switching from yards to meters.

▪ **Waterproof/Fogproof (except battery chamber)**

Nitrogen filled and O-ring sealed.

▪ **CR2 Lithium Battery Included**

▪ **Silent Technology Soft Case**

In Realtree APG camouflage to match the rest of the Cianciarulo's gear.

Ralph and Vicki Cianciarulo.

The Nikon Archer's Choice Laser Rangefinder is equipped with silent technology case for the ultimate in stealth bowhunting.

Nikon has teamed up with the pros at Archer's Choice to create a rangefinder just for bowhunting! The Nikon Archer's Choice Laser Rangefinder combines Nikon's advanced ID (Incline/Decline) technology with all the features serious bowhunters demand: Bright, multicoated optics, constant first target priority mode, long eye relief and fast, consistent and accurate measurements. Simply aim, push the button and plan your shot according to the displayed distance.

Archer's Choice Laser Rangefinder

Part #8366

Complete specifications on page 53.

Simple, uncluttered reticle gives you the one number you need to make your shot. Distance measurements are displayed in increments of 1/5 yard/meter.

■ ID TECHNOLOGY DISTANCE
■ NON-COMPENSATED DISTANCE

The results from the product may not be achieved depending on the target object's shape, surface texture and nature, and/or weather conditions. The origin of the technology behind this Laser Rangefinder with inclinometer is the Total Station DTM-1 (initially sold in 1985), the first highly advanced electronic model among surveying instruments incorporating both distance and angle measurement capability developed by Nikon Corporation.

Nikon Archer's Choice Laser Rangefinders

Nikon's advanced ID (Incline/Decline) Technology allows bowhunters to range targets from a treestand or in steep terrain with the same confidence and ease as ranging over flat ground.

Jon Allen—General Manager of Nikon Sport Optics

NIKON RIFLEHUNTER LASER RANGEFINDERS

RIFLEHUNTER

The RifleHunter 550 Laser Rangefinder combines Nikon's trademark speed, accuracy and simplicity with ID (Incline/Decline) technology designed to give hunters the confidence to make long-range shots—especially in difficult situations such as shooting up a mountainside or down into a canyon. When used with Nikon's patented BDC scope reticles, it becomes the ultimate system for hunters who want to increase their long range shooting effectiveness.

• **Nikon's ID Technology**

Nikon's advanced ID Technology calculates the horizontal distance for various incline or decline shooting angles—up to an incredible ± 89 degrees (nearly vertical up or down).

• **Displays in .2 yard/meter Increments**

In ID Technology mode, distance measurements are calculated and displayed in increments of .2 yard/meter out to 99.8 yards, and in 1 yard/meter increments past 100 yards.

• **True 550 Yard Ranging Capability**

For virtually any situation.

• **Tru-Target™ Ranging System**

Flexible ranging mode capabilities for various hunting conditions and terrain (see page 13 for Tru-Target details)

• **Easy-to-View Uncluttered LCD Display**

For fast, easy ranging, even in bright sunlight.

• **Bright, Multicoated 6x Optics**

Nikon's legendary optics and proprietary anti-reflective coatings offer high-resolution images in most lighting conditions.

• **Single Button Operation**

For fast, easy measurements. Automatically powers down after 8 seconds to reduce battery use.

• **Ultra-Compact Size**

Fits in a pocket or pack, and can be worn on a belt without interfering with your shot.

• **Waterproof/Fogproof (except battery chamber)**

Nitrogen filled and O-ring sealed.

• **CR2 Lithium Battery Included**

The results from the product may not be achieved depending on the target object's shape, surface texture and nature, and/or weather conditions.

The origin of the technology behind this Laser Rangefinder with inclinometer is the Total Station DTM-1 (initially sold in 1985), the first highly advanced electronic model among surveying instruments incorporating both distance and angle measurement capability developed by Nikon Corporation.

Complete specifications on page 53.

The Nikon RifleHunter 550 with ID Technology brings a new level of usage to hunters who demand precision—regardless of the shot angle. Advanced ID Technology calculates for various incline or decline shooting angles and provides the equivalent horizontal range to the target. You simply aim, push the button and plan the shot according to the displayed distance.

RIFLEHUNTER

The RifleHunter 550 incorporates Nikon's ID (Incline/Decline) Technology that indicates the appropriate distance for bullet drop at virtually any shooting angle. No more guessing about holdover, just fast, accurate and consistent reads that get you on target quickly when seconds count. The RifleHunter 550 features Nikon's legendary multicoated optics, Tru-Target Technology waterproof/fogproof construction and a slim, lightweight design that travels and hunts where you do.

RifleHunter 550 Laser Rangefinder

Part #8367 (Brown); #8368 (Advantage Max-1 HD)

Budget-conscious hunters can get the same 550-yard ranging capability, waterproof/fogproof integrity and optical performance as with the RifleHunter, but without the ID Technology feature, in the ProStaff and Team REALTREE 550 laser rangefinders.

ProStaff 550 & Team REALTREE 550 Laser Rangefinders

Part #8369 (Green); #8370 (REALTREE APG)

Nikon RifleHunter & ProStaff Laser Rangefinders

A man wearing a camouflage cap and jacket is using a Nikon Monarch laser rangefinder. He is holding the device to his eye and looking through it. The background is a field of tall, dry grass. The Nikon Monarch logo is visible on the device.

Brad Farris—Primos Hunting Calls and Team Primos Member

MONARCH® LASER RANGEFINDERS & LASER IRT

Nikon Laser Rangefinders with Tru-Target™ Technology deliver high-resolution images and incredibly fast, precise measurements thanks to Nikon's digital measurement process. Highly ergonomic in both size and functionality, these pocket rangefinders were engineered to instill confidence in your next shot.

▪ **Original Digital Measurement Process**

Advanced laser pulse receivers give you incredibly fast and consistent measurements.

▪ **Tru-Target™ Ranging System**

Flexible ranging mode capabilities for various hunting conditions and terrain.

▪ **Bright, Multicoated Optics**

Nikon's legendary optics and proprietary anti-reflective coatings offer high-resolution images under virtually all lighting conditions.

▪ **Displays in .5-yard Increments**

Laser1200 model displays in .5-yard increments out to 1,000 yards and 1 yard increments beyond 1,000 yards. Laser800 model displays in .5-yard increments.

▪ **Ultra-Compact Size**

Fits in a pocket or pack and can be worn on a belt without interfering with your shot.

▪ **Single Button Operation**

For fast, easy measurements. Continuous ranging feature allows ranging of moving or multiple targets. Automatically powers down after 8 seconds to reduce battery use.

▪ **Easy-to-View LCD Display**

For easy ranging, even in bright sunlight.

▪ **CR2 Lithium Battery Included**

▪ **TriPod Adaptable**

▪ **Waterproof/Fogproof** (except battery chamber)
Nitrogen filled and O-ring sealed.

Spotting trophies at distances exceeding half-a-mile is now a reality with Nikon's Monarch Gold Laser1200™ compact rangefinder. This 9.8-ounce wonder has a selectable backlighting feature in the bright LCD display, continuous ranging feature, eyeglass friendly 7-power multicoated optics with focusing diopter, and a 34mm laser pulse receiver.

**Monarch Gold Laser1200
Long Range 7x25 Waterproof/Fogproof**

Part #8358 (Black), #8359 (REALTREE Hardwoods Green HD)

One of the most popular rangefinders ever made, the Monarch Laser800™ gives you super-fast reads alongside Nikon's advanced Tru-Target Ranging System. This palm-sized, 7.4-ounce hunting companion features 6-power multicoated optics, an eyeglass-friendly 18mm of eye relief with focusing diopter, continuous ranging feature and a selectable backlighting feature.

Monarch Laser800 6x21 Waterproof/Fogproof

Part #8356 (Black), #8357 (REALTREE Hardwoods Green HD)

Keep your rangefinder close at hand, yet secure and out of the way.

Retractable Rangefinder Tether

Part #8172 Black;
#8173 REALTREE Hardwoods Green HD

Accurate long-range shots are now easier than ever, thanks to the speed and simplicity of this laser ranging riflescope. The Nikon Laser IRT removes the guesswork from proper shot placement while saving you precious seconds going from rangefinder to riflescope.

▪ **Nikon's Patented BDC Reticle**

The BDC reticle allows hunters to hold "dead-on" at ranges exceeding those previously thought possible. The BDC's unique see-through ballistic circles offer an incredible advantage for long range shooting—yet allow a normal sight picture for shorter-range shots where the crosshair itself is the aiming point.

▪ **Patent-pending Laser Activator**

This fast, one-touch button makes determining range and taking the shot fast and simple.

▪ **Remote Control Laser Activator**

Convenient remote control can be easily attached to most firearms.

▪ **Multicoated Optics**

Multiple layers of anti-reflective compounds deliver bright, high-resolution images and brilliant color.

▪ **4-12 Power Zoom**

Versatile magnification range for close up and long range shots.

▪ **Quick Focus Eyepiece**

Allows the shooter to instantly bring the reticle into sharp focus.

▪ **Low Profile Mounting System**

Places the IRT securely and safely on your rifle.

▪ **Precise Hand-turn 1/4-MOA Click Adjustments**

Easy-to-use positive click reticle adjustments get you zeroed in quicker and maintain your setting—even with heavy recoil.

▪ **Waterproof, Fogproof, Shockproof (except battery chamber)**

Nitrogen filled and O-ring sealed.

1 year warranty on electronics.

Complete scope & reticle specifications on pages 49 & 51.

Tru-Target Ranging System

First Target Priority Mode

Allows confident ranging of objects as small as fence posts or to get an instant reading on that lone buck in the meadow.

Distant Target Priority Mode

Displays range to the farthest target among the targets measured, ideal for accurate ranging in typical hunting situations where game animals may be partially obscured by grass or brush.

Complete specifications on page 53.

The Laser IRT 4-12x42 combines the speed of a Nikon rangefinder with the accuracy potential of the patented Nikon BDC reticle. Bright, multicoated Nikon optics deliver from dawn to dusk, while the field of view and power range are suitable for any hunt.

Laser IRT 4-12x42

Part #8477 (Matte, BDC)

Simply place the reticle on your target, press the scope's patent pending one-touch activator button and select the proper ballistic circle on the BDC reticle to make your shot.

The results from the product may not be achieved depending on the target object's shape, surface texture and nature, and/or weather conditions.

Laser Rangefinders & Laser IRT

Larry Weishuhn—Professional wildlife biologist, TV-host and award-winning author

MONARCH® RIFLESCOPES

Armed with more than 91 years of experience and a clean sheet of paper, our engineers created a flagship riflescope that shattered the limits of what a riflescope should be. Hunters continue to line up to get their hands on the new Monarch and experience its superior technology.

Nikon's Patented BDC Reticle

The BDC reticle allows hunters to hold "dead-on" at ranges exceeding those previously thought possible. The BDC's unique see-through ballistic circles offer an incredible advantage for long range shooting—yet allow a normal sight picture for shorter-range shots where the crosshair itself is the aiming point.

Ultra ClearCoat® Optical System

Nikon has engineered the entire optical system to provide the shooter with a bright, sharp, incredibly flat sight picture and light transmission up to 95%.

Monarch Eye Box Technology

With an impressive 4-time zoom range and four inches* of constant, non-critical eye relief, Monarch scopes feature massive ocular lenses that delivers a huge, exceptionally bright, high-resolution sight picture.

Smooth Zoom Control

Magnification reference numbers are viewable from the shooter's position.

Enhanced Mount Ring Spacing

Most Monarch models can be mounted to virtually any rifle action regardless of caliber—even magnum-length actions. 2.5-10x50 and 2-8x32 models may require extension rings in some cases.

Interchangeable Turret Technology

All Monarchs can be customized with accessory target-style windage and elevation adjustment knobs and caps. For information and availability, visit www.NIKONHUNTING.com.

One-Piece Main Body Tubes

For minimum weight and maximum strength and durability.

Sunshade Adaptable

Optional accessory sunshade (available for 42mm & larger objectives) eliminates glare in bright conditions and keeps dust and rain off of the objective lens.

Waterproof, Fogproof, Shockproof

Nitrogen filled and O-ring sealed.

Peter Moleski, Senior Vice President of Nikon Inc. with a Trophy Cape Buffalo.

2-8x32

Some rifles just look better with a compact scope. From carbine to mountain rifle to deer rifle, this is a sweet little scope for your favorite rifle—with its wide power range, generous field of view and compact, lightweight size.

2-8x32 **M**

Part #8437 (Matte, Nikoplex), #8438 (Matte, BDC)

This Monarch's wide magnification range sets the new standard of performance for a mid-sized scope! Enhanced ring spacing allows this scope to be mounted on virtually any rifle, including magnum length actions.

2.5-10x42 **L M S**

Part #8406 (Lustre, Nikoplex), #8407 (Matte, Nikoplex), #8408 (Matte, Mildot), #8409 (Silver, BDC), #8411 (Matte, BDC)

A big objective in a surprisingly compact size, this Monarch offers you the combination of huge field of view at low power and a 5mm exit pupil even at high power, providing all the light your eye can handle at first and last light.

2.5-10x50 **M**

Part #8416 (Matte, Nikoplex), #8417 (Matte, BDC)

Enhanced Mount Ring Spacing	Huge Ocular Lens	Four Inches* of Constant Eye Relief

*within one-tenth-of-an-inch to five-tenths-of-an-inch, depending on model

FINISHES AVAILABLE

- L** Lustre
- M** Matte
- S** Silver

Complete scope & reticle specifications on page 48 & 50.

Available on all models.

Jon LaCorte—Senior Product Marketing Manager, Nikon Sport Optics

MONARCH® LONG RANGE RIFlescOPES

For the ultimate in confidence when taking the long shot, the Monarch Long Range Riflescope line offers superb optics, four-time magnification zoom range on every model, locking side focus parallax adjustment, four inches of eye relief* and Nikon's BDC reticle. From varmint, to target, to big game, there's a Nikon Monarch Long Range riflescope to fit your kind of hunting or shooting.

- Locking Side Focus Parallax Adjustment**
 Standard on all Long Range Monarch riflescopes, Nikon's easy-to-reach dial allows you to quickly focus from a shooting position.
- Sunshade Adaptable**
 Optional accessory sunshade eliminates glare in particularly bright conditions and keeps dust and rain off of the objective lens on rainy days or in dusty environments. Standard with 8-32x50ED, 6-24x50 & 5-20x44.
- Waterproof, Fogproof, Shockproof**
 Nitrogen filled and O-ring sealed.
- Interchangeable Turret Technology**
 All Monarch riflescopes can be customized with accessory high profile windage and elevation adjustment knobs and caps.
- 1/4-MOA Turret Kit**
 #6004 (1/4-MOA scopes only)
 Includes high profile knobs with caps.

This Monarch is the next big thing in precision. Nikon's advanced ED (Extra-Low Dispersion) Glass eliminates chromatic aberration while the lens system delivers excellent image clarity and resolution. This scope features an incredible power range and a big 50mm objective lens for optimum brightness in any lighting condition. 1/8-MOA adjustment. Includes low and high profile knobs and caps and oversized target knobs and sunshade. Incorporated into the scope is a specially developed BDC reticle configuration to better utilize the Monarch 8-32x50ED scope's long range magnification and clarity.

8-32x50ED SF M
 Part #8479 (Matte, Nikoplex), #8480 (Matte, BDC)

This incredibly versatile rifle scope has the big 50mm objective to draw in the light, be it dawn or dusk, plus a great magnification range for a variety of hunting situations.

4-16x50SF M
 Part #8439 (Matte, Nikoplex), #8440 (Matte, BDC)

All the power necessary for long range varmints, yet a big enough field of view at the low end for close-quarter big game hunting. This all-purpose rifle scope is an ideal choice for shooting in the field or on the bench.

4-16x42SF M
 Part #8421 (Matte, Nikoplex), #8422 (Matte, BDC), #8423 (Matte, Mildot)

Whether you're varmint shooting, hunting in the first or last light of day and need the extra resolution that high magnification can offer, or simply want big power, this is your scope. 1/8-MOA adjustment. Includes low and high profile knobs and caps and oversized target knobs and sunshade.

6-24x50SF M
 Part #8426 (Matte, Nikoplex), #8427 (Matte, Fine Crosshair), #8428 (Matte, Fine Crosshair w/ Dot), #8429 (Matte, BDC)

A full 33% more magnification at the high end than a 3-9x40! A huge ocular, generous field of view and maximum light transmission for dawn to dusk brightness and resolution make this scope the "must have" for any kind of big game hunting.

3-12x42SF L M
 Part #8418 (Lustre, Nikoplex), #8419 (Matte, Nikoplex), #8420 (Matte, BDC)

Any rifle, any game, any distance—this amazing rifle scope combines a flexible magnification range with a high-resolution 44mm objective lens to create one of the most highly demanded riflescopes ever engineered. 1/8-MOA adjustment. Includes low and high profile knobs and caps and oversized target knobs and sunshade.

5-20x44SF M
 Part #8424 (Matte, Nikoplex), #8425 (Matte, BDC)

FINISHES AVAILABLE

Mike Rogers—Host of SCI's Expedition Safari www.safariclub.org

MONARCH® AFRICAN SERIES

Africa has long been a continent of dreams for hunters around the world. For those seeking dangerous game adventure on the Dark Continent, Nikon has a new riflescope series that is more than ready for the hunt. With ultra wide field of view, four time magnification zoom and generous eye relief, the Monarch African gives you everything you need in a dangerous game riflescope.

Mike Rogers on a recent hunt for trophy tahr in New Zealand (left), where he put his Monarch scope and EDG binocular through their paces.

In 2009, Mike will also be putting his trust in the new Monarch African Series riflescopes on numerous African safaris.

Ultra ClearCoat® Optical System

Nikon has engineered the fully multicoated optical system to provide the shooter with a bright, sharp, incredibly flat sight picture and light transmission up to 95%.

German #4 Reticle

The proven choice for dangerous game hunting.

One-Piece Main Body Tubes

For minimum weight and maximum strength and durability.

Precise Hand-turn 1/4-MOA Click Adjustments (1.1-4x24 models)

Easy-to-use positive click reticle adjustments get you zeroed in quicker and maintain your setting—even with heavy recoil. 1-4x20 model comes with 1/2-MOA click adjustments.

Enhanced Mount Ring Spacing

For mounting to virtually any rifle action regardless of caliber—even magnum length actions.

Quick Focus Eyepiece

Allows the shooter to instantly bring the reticle into sharp focus.

Waterproof, Fogproof, Shockproof

Nitrogen filled and O-ring sealed.

NEW!

The first Nikon rifle scope designed specifically for dangerous game hunting in Africa, the Monarch African 1-4x20 delivers a gigantic field of view and an incredible 20mm-5mm exit pupil range for low-light hunting. The 1-4 power range keeps shooters on target, in fast “both eyes open” situations.

Monarch African 1-4x20 **M**

Part #8446 (Matte, German #4)

NEW!

On safari, the right scope could literally mean the difference between life and death. That’s why the Monarch African 1.1-4x24 offers everything you need for a successful trip. A larger, 30mm body tube for maximum resolution, windage and elevation travel and low-light performance. A massive field of view. Nikon’s fully multicoated optics for crystal clear viewing and a power range designed to handle fast shots with dangerous game.

Monarch African 1.1-4x24 **M**

Part #8448 (Matte, German #4)

NEW!

For late night predators of the toothy kind or any low light, low contrast hunting, Nikon provides a Monarch African 1.1-4x24 with an illuminated German #4 reticle. It features the same larger, 30mm body tube for high resolution and low-light performance, enormous field of view and exit pupils at any magnification range and waterproof, fogproof durability.

Monarch African 1.1-4x24 Illuminated Reticle **M**

Monarch African Riflescopes

**Mike Rogers—
Host of SCI's Expedition Safari www.safariclub.org**

MONARCH® GOLD RIFLESCOPES

The Monarch Gold series represents the pinnacle of technology for sportsmen. Big, European-style 30mm tubes feature greater tube strength, larger internal lenses for enhanced resolution and a broader light path from objective to eyepiece lens, and wider windage and elevation travel than typical one-inch tube scopes. If your livelihood depends on your riflescope—Nikon Monarch Gold is your choice.

- Ultra ClearCoat® Optical System**
 Nikon has engineered the entire optical system to provide the shooter with a bright, sharp, incredibly flat sight picture and light transmission up to 95%.
- Rugged, One-Piece 30mm Body Tubes**
 Larger tubes allow for maximum resolution, wider windage and elevation travel and superior low-light performance. Milled from aircraft grade aluminum, durability is built into each model.
- Larger Internal Lenses**
 Produce a larger "sweet spot" for enhanced resolution.
- Four Time Magnification Zoom Range**
 Provides outstanding flexibility for up-close shots as well as long-range canyon-to-canyon shots.
- Locking Side Focus Adjustments** (2.5-10 models)
 Locking side focus adjustment dials out parallax for the longest shots.
- Four Inches of Constant Eye Relief**
 Every Monarch Gold assures you of a full four inches of eye relief throughout the magnification range—especially important for hard-kicking magnums.
- Quick Focus Eyepiece**
 Allows the shooter to instantly bring the reticle into sharp focus.
- Hand-turn 1/4-MOA Windage and Elevation Adjustments**
 Get you zeroed-in quicker and maintain your setting even with heavy recoil.
- Waterproof, Fogproof, Shockproof**
 Nitrogen filled and O-ring sealed.

Eye Relief—A Hunter's Best Friend

Nothing can boost a shooter's level of confidence better than generous, constant* eye relief in a riflescope. Heavy recoiling cartridges, lightweight rifles, severe shooting angles and just plain excitement can put your brow in danger of the scope eyepiece unless that scope happens to be Nikon.

**within one-tenth-of-an-inch, depending on model*

For low light hunting, there's nothing better than the Monarch Gold 2.5-10x56. Delivering an incredible 5.7mm exit pupil at 10x, this low light specialist also offers up a huge field of view at its lower magnifications.

2.5-10x56 Monarch Gold M
 Part #6622 (Nikoplex), #6620 (German #4)

This award-winning combination is a favorite of many of America's top gun and hunting editors, and for good reason. It represents the ultimate balance of magnification and brightness.

2.5-10x50 Monarch Gold M
 Part #6619 (Nikoplex), #6617 (German #4), #6618 (BDC)

A premier dangerous game riflescope, the Monarch Gold 1.5-6x42 offers a massive field of view, a very useable power range and 7mm-plus exit pupil at any magnification. A fine choice for extreme low light hunting and the heaviest cover.

1.5-6x42 Monarch Gold M
 Part #6616 (Nikoplex), #6615 (German #4)

Monarch Gold Riflescopes

MONARCH X RIFLESCOPES

If precision is the name of the game, the name of the riflescope is Monarch X. Designed from the ground up with the professional in mind, Nikon Monarch X scopes are overbuilt with 30mm tubes and glass etched reticles for extreme ruggedness and optical excellence. These scopes perform at the top of their game for tens of thousands of rounds, and will always be ready.

All Nikon scopes with Mildot reticles include a mail-in voucher for a free (plus \$4.95 S&H) Mildot Master calculator and instructions.

- Ultra ClearCoat® Optical System**
 Nikon has engineered the entire optical system to provide the shooter with a bright, sharp, incredibly flat sight picture and excellent light transmission.
- Rugged, One-Piece 30mm Body Tubes**
 Larger tubes allow for maximum resolution, wider windage and elevation travel and superior low-light performance. Milled from aircraft grade aluminum, durability is built into each model.
- Four Time Magnification Range**
 Provides outstanding flexibility for up close as well as long-distance shots.
- Hand-turn 1/4-MOA Windage and Elevation Adjustments**
 Reticule adjustments are made in 1/4 MOA click-stop moves you can both feel and hear, and with no backlash to make your shot creep off target.
- Glass Etched Reticule**
 Shrugs off recoil from even the hardest hitting, flattest shooting calibers.
- Turret Mounted Side Focus Parallax Adjustments**
 State-of-the-art adjustments are precise, repeatable and stay put until you move them.
- Easy-to-Grip Adjustment Knobs**
 Expert marksmanship requires precision, the Monarch X riflescope delivers.
- Matte Black Anodized Finish**
 Tough body resists corrosion and wear.
- Waterproof, Fogproof, Shockproof**
 Nitrogen filled and O-ring sealed.
- Larger Internal Lenses**
 Produce a larger "sweet spot" for enhanced resolution.

NIKON ENCORE® HANDGUN SCOPES

From wild boars in the thorns to whitetails on the plains, if you hunt it with a handgun, Nikon's Encore gives you precisely what you're looking for in an extended eye relief scope—the Nikon BDC reticle, hand-turn adjustments, quick focus eyepiece—all in a tough, recoil-proof design.

Nikon Encore Scopes

- Ultra ClearCoat® Optical System**
 Nikon's exclusive Ultra ClearCoat system delivers up to 95% light transmission.
- Long Eye Relief**
 EER scopes are engineered for arm's length shooting, and to withstand the recoil of the most powerful cartridges.
- Exceptional Versatility**
 The Nikon Encore scopes are also excellent choices for dangerous game rifles, carbines, slug guns, muzzleloaders and scout rifles when extended eye relief is needed.
- Versatile Magnification Range**
 Provides outstanding flexibility for up-close shots as well as long-range shots.
- Quick Focus Eyepiece**
 Allows the shooter to instantly bring the reticle into sharp focus.
- Waterproof, Fogproof & Shockproof**
 Nitrogen filled and O-ring sealed.

The 2.5-8x28 EER (Extended Eye Relief) scope features Nikon's BDC reticle. Designed with ultra-rugged recoil-proof construction, an ideal power range and Nikon's legendary optics, this scope will satisfy all the needs of the most demanding handgun hunters, varminters and competitors.

ENCORE 2.5-8x28 EER M S
 Part #8481 (Matte, BDC), #8482 (Silver, BDC)

Vicki Cianciarulo, Archer's Choice Media, and trophy caribou.

ENCORE BDC RETICLE

The Encore BDC reticle is optimized for handguns in the following rifle calibers and bullet weights with velocities between 2500 and 2600 fps:

- 7mm-08 Rem., 140 gr. bullet
- 308 Win., 165 gr. bullet
- 270 Win, 130 gr. bullet
- 30-06, 165 gr. bullet

Monarch® Dot Sight VSD Series

- Multicoated Lenses**
 Objective and ocular lenses are 30mm and are multicoated for incredible sharpness, brightness and color rendition.
- Electronic Dot Sight with Variable Sized Dot**
 Select any of five dot sizes- 1, 4, 6, 8 or 10 MOA- with the twist of a knob on the turret.
- Massive Field of View**
 Perfect FOV for close shots.
- 11-Position Rheostat**
 Gives you almost infinite reticle brightness.
- Integral Mounting System**
 Included system attaches to any Weaver-style mount base.
- Unlimited Eye Relief**
 Hunt with confidence, without fear of shooter's brow.
- Waterproof, Fogproof & Shockproof**
 (except battery chamber)
 Nitrogen filled and O-ring sealed.

From targets to Toms, this is the ideal choice! Providing the finest in optics, reliability and toughness, the VSD's (Variable Sized Dot) unlimited eye relief and massive field of view make it perfect for any hunting style. Select from 1,4,6,8 or 10 MOA dot size. Runs on a single lithium battery (included).

Gary Roberson—Owner, Burnham Brothers Predator Calls

COYOTE SPECIAL RIFLESCOPES

Thanks to Nikon, predator hunters now have a choice of riflescopes built specifically for their unique needs. Paired with Nikon's all new BDC Predator Hunting reticle the all-new Coyote Special riflescopes are definitely at the top of the food chain.

Nikon's Patent Pending BDC Predator Hunting Reticle

Utilizes ballistic circles with carefully researched spacing that is designed around the needs of predator hunters. Unique, open circle design doesn't obscure target, making shots on a moving coyote simple.

ARD (Anti Reflective Device) Technology

Eliminates game spooking glare.

Nikon Multicoated Lenses

Provide up to 92% light transmission and maximum brightness from dawn to dusk.

Precise Hand-turn 1/4 - MOA Click Adjustments

Easy-to-use positive click reticle adjustments get you zeroed in quicker and maintain your setting—even with heavy recoil.

Generous Eye Relief

For easy sighting in difficult shooting positions.

Quick Focus Eyepiece

Allows the shooter to instantly bring the reticle into sharp focus.

Waterproof/Fogproof

Nitrogen filled and O-ring sealed.

BDC PREDATOR hunting reticle

Gary Roberson after a successful morning.

Warne® manufactures these all-steel rings for Nikon specifically for the Coyote Special Riflescopes. Fit any Warne, Weaver or Picatinny-style mount base, the High rings work well with AR-platform rifles--Medium rings fit most other rifles.

Camo Scope Rings

Part#740 (High rings, Advantage MAX 1)
 Part#741 (Med. rings, Mossy Oak Brush)

The exceptional 4.5-14x40 Coyote Special gives you the power range necessary to make the longer shots and features the BDC Predator Hunting reticle, 1/4-MOA adjustments, multicoated optics and legendary Nikon durability. Includes Nikon's ARD technology that eliminates game-spooking glare. Available in your choice of Bill Jordan's Advantage Max-1 or Mossy Oak Brush camouflage.

4.5-14x40 Coyote Special

Part #8451 (Predator Hunting BDC, Advantage Max-1),
 #8452 (Predator Hunting BDC, Mossy Oak Brush)

Thick-cover hunters will enjoy the speed and field of view that the 3-9x40 Coyote Special offers. Utilizing the incredible new BDC Predator Hunting reticle, predators are now in range from as far as 450 yards out. Includes ARD technology that eliminates game spooking glare, 1/4-MOA adjustments and your choice of camo finish.

Nikon Coyote Special Riflescopes

A photograph of two hunters, a man and a woman, sitting in the center. They are wearing camouflage clothing and caps. The man is on the left, and the woman is on the right. They are both smiling. In front of them are two large deer heads with impressive antlers. The background shows a body of water and a cloudy sky. The overall scene is outdoors, likely in a hunting area.

Pat Reeve and Nicole Jones—Hosts, Driven TV

NIKON OMEGA MUZZLELOADING RIFLESCOPE

Extending your season with a muzzleloader? Our breakthrough Omega BDC 250 can extend your shooting range as well. A dedicated muzzleloading riflescope, the Nikon Omega BDC 250 helps you realize the full potential of your muzzleloader. The patented BDC 250 reticle allows muzzleloading hunters to confidently shoot out to 250 yards and beyond.

Nikon's Patented BDC 250 Reticle

This patented, trajectory-compensating reticle integrates unique, easy-to-see "ballistic circles" that provide instant aiming points—and take the guesswork out of holdover at longer ranges.

Multicoated Optical System

Bright, multicoated optics deliver up to 92% light transmission.

Five Inches of Constant Eye Relief

Keeps your brow safe—even with heavy 3-pellet charges.

Precise Hand-turn 1/4-MOA Click Adjustments

Easy-to-use positive click reticle adjustments get you zeroed in quicker and maintain your setting—even with heavy recoil.

100-yard Parallax Setting

Eliminates parallax for precise shooting.

Quick Focus Eyepiece

Allows the shooter to instantly bring the reticle into sharp focus.

Compact Size

The perfect fit for high-caliber muzzleloaders.

Waterproof, Fogproof, Shockproof

Nitrogen filled and O-ring sealed.

Part #8182 (med. scope ring); #8183 (med. QR scope ring)

Nikon Omega Muzzleloading Rifle Scopes

Jackie Bushman—Founder and CEO of Buckmasters, Inc.

NIKON BUCKMASTERS® RIFLESCOPES

No other riflescope brings to mind trophy deer and happy hunters as the famous Nikon Buckmasters® line. You simply won't find a better combination of critical light transmission, must-have features, and rugged durability. With the Buckmasters family, there's a perfect match for every rifle, every hunter and every hunting style.

• **Brightvue™ Multicoating**

Bright, multicoated optics deliver up to 92% light transmission.

• **Large Exit Pupils**

Improved low light hunting at dawn or dusk, when the game is usually moving.

• **Side Focus Adjustments (SF Models)**

Long Range models include adjustments for parallax-free sighting.

• **Available in REALTREE Camouflage**

Using a HIGH DEFINITION® pattern this ultra-realistic camo gives hunters versatile choices for use in areas where green is prevalent.

• **Precise Hand-turn 1/4-MOA Click Adjustments**

Easy-to-use positive click reticle adjustments get you zeroed in quicker and maintain your setting—even with heavy recoil. (6-18x40SF features 1/8-MOA adjustments)

• **Quick Focus Eyepiece**

Allows the shooter to instantly bring the reticle into sharp focus.

• **Sunshade Adaptable (except 1x20)**

Optional accessory sunshade eliminates glare in particularly bright conditions and keeps dust and rain off of the objective lens on rainy days or in dusty environments.

• **Waterproof, Fogproof, Shockproof**

Nitrogen filled and O-ring sealed.

The quintessential big game/varmint combination, the Buckmasters® 6-18x40SF is a hunter's dream come true. A side-focus adjustment to dial-out parallax makes this an outstanding long-range scope at an outstanding price. Includes sunshade and extra set of target-style high profile knobs.

6-18x40SF Buckmasters **M**

Part # 6472 (Matte, Nikoplex),
6476 (Matte, Fine Crosshair w/Dot), 6473 (Matte, BDC)

Whitetail hunters are drawn to this scope's huge 50mm objective lens for its superb low light clarity and brightness. The 3-9-power range is also the one most preferred by hunters across the country for the best blend of field of view and long-range capability.

3-9x50 Buckmasters **M**

Part #6430 (Matte, Nikoplex) Optional Sunshade: Part #8055

One of Nikon's most popular scopes, due to its highly versatile magnification range and side-focus parallax adjustment, the 4.5-14x40SF has plenty of power for the bean field or the varmint patch, plus a wide field of view at low power for stalking or still hunting.

4.5-14x40SF Buckmasters **M S**

Part #6452 (Matte, Nikoplex), #6469 (Matte, Mildot), #6456 (Silver, Nikoplex), #6453 (Matte, BDC) Optional Sunshade: Part #8053 (Black), #8054 (Silver)

Always one of our most popular scopes, the Buckmasters 3-9x40 has a proven track record of reliability, durability and precision that makes its price even more attractive. It is at home on any hunting rifle, muzzleloader—even rimfire!

3-9x40 Buckmasters **M S B**

Part #6420 (Matte, Nikoplex), #6410 (Silver, Nikoplex), #6479 (REALTREE APG, Nikoplex), #6421 (Matte, BDC) Optional Sunshade: Part #8053 (Black), #8054 (Silver)

This Buckmasters scope offers the best of both worlds— a large exit pupil for low light hunting combined with the greater resolving capability of higher magnification. Features side-focus adjustments for parallax-free sighting.

4-12x50SF Buckmasters **M**

Part #6445 (Matte, Nikoplex) Optional Sunshade: Part #8055

The 1x20 delivers amazing light transmission and a 20mm exit pupil for bright viewing at dawn, dusk or in poor weather. Its low magnification creates a huge field of view and it is legal in states where zero magnification is required.

Brian Lasley—Brand Management/Product Development- Shotguns, Remington Arms Company, Inc.

SLUGHUNTER SHOTGUN RIFLESCOPES

To the millions of American hunters who take a slug gun into the deer woods on every hunt, Nikon has redefined the effective shooting range of your big bore hunting tool. Engineered to extend your ethical hunting range beyond anything you thought possible, the SlugHunter BDC 200 features Nikon's advanced ballistic reticle technology for accurate shots out to 200 yards.

Nikon's BDC 200 SlugHunter Reticle

Designed for use with aerodynamic polymer-tipped slugs, this trajectory-compensating reticle integrates unique, easy-to-see "ballistic circles" that provide instant aiming points—and take the guesswork out of holdover at longer ranges.

Multicoated Optical System

Bright, multicoated optics deliver up to 92% light transmission.

Five Inches of Constant Eye Relief

Keeps your brow safe—even with the heaviest slug loads while providing enough eye relief for cantilever type mounts.

Precise Hand-turn 1/4-MOA Click Adjustments

Easy-to-use positive click reticle adjustments get you zeroed in quicker and maintain your setting—even with heavy recoil.

100-yard Parallax Setting

(75 yds. for 1.65-5x36)
Eliminates parallax for precise shooting.

Quick Focus Eyepiece

Allows the shooter to instantly bring the reticle into sharp focus.

Compact Size

The perfect fit for high-caliber slug guns.

Waterproof, Fogproof, Shockproof

Nitrogen filled and O-ring sealed.

Nikon's BDC 200 SlugHunter Reticle

Designed to be sighted-in on the crosshair at 50 yards, the BDC 200 has two "ballistic circles" that represent 100-yard and 150-yard aiming points. For exceptionally accurate gun and load combinations, the lower reticle post becomes a 200-yard aiming point as well. After sighting-in the crosshair at 9x, determine the distance to your target with a rangefinder and use the appropriate ballistic circle.

Simply place appropriate range circle on buck's vitals and shoot

PREMIER BINOCULARS

PREMIER

Nikon Premier binoculars are some of the most highly acclaimed binoculars in the world. Engineered by those who know that hunting equipment is expected to see hard use. Designed for those who realize that hunting may mean searching for game for hours, but who demand to be able to judge an animal in the fading light.

- **Phase-Correction**

Enhances resolution for excellent detail

- **Silver Coated Prisms**

High-reflection silver coating on the prism surface for the brightest images.

- **Nikon's Exclusive Field Flattener and Eyepiece Design**

For remarkably sharp, clear viewing.

- **Fully Multicoated Optics**

Multiple layers of anti-reflective compounds on every glass surface for bright, vivid sight pictures.

- **Quick, Central Focus Knob**

For fast subject acquisition.

- **Durable and Protective, Rubber-Armored Coating**

Provides a non-slip grip, wet or dry.

- **Sturdy, Die-Cast Magnesium-Alloy Body**

Cuts weight without sacrificing durability.

- **Turn-and-Slide Rubber Eyecups**

With multi-click adjustments are extremely eyeglass-friendly.

- **Waterproof/Fogproof**

Nitrogen filled and O-ring sealed.

Babe Winkelman, host, Outdoor Secrets, and trophy elk.

Pam favors the 32mm Premier.

When you want the absolute best performance for any hunting conditions, the 42mm Nikon Premier, in either 8x or 10x power, could be called the ultimate choice. The big dog on the block in waterproof/fogproof optical performance, it is second to none in light gathering, ergonomics and durability.

Premier 8x42, 10x42

Part #7535 (8x42): #7536 (10x42)

Built with the same rugged water-, fog- and shockproof integrity, the 32mm Nikon Premier is for the hunter seeking to save a little weight on those long stalks. Turn-and-slide eyecups with multi-click adjustment, new body materials for a better grip in any condition and the same fully multicoated lenses as big brother. All housed in a sleek, easy-to-use roof prism body.

Premier 8x32

Part #7534

The smallest sibling in the Nikon Premier line is absolute for compact, lightweight performance. Not only do they include an excellent field of view for a compact, but they also deliver close focus distance and long eye relief. Turn-and-slide rubber eyecups give you a perfect fit with or without eyewear and, like their big brothers, they are built to perform in any hunting situation.

Premier 8x20, 10x25

Part #7506 (8x20): #7507 (10x25)

Complete specifications on page 52.

Premier Binoculars

MONARCH X BINOCULARS

The new Monarch X series combines the latest optical technology with recent advancements in construction to create the next great binocular line. Featuring Nikon's advanced dielectric high-reflective multilayer prism coating, formerly available only on the exclusive EDG binocular, the Monarch X delivers a brighter, more crisp view during critical dusk and dawn periods.

- **Dielectric High-Reflective Multilayer Prism Coating**
Extraordinary technology delivers uncompromised low-light performance.
- **Newly Designed Rigid Construction**
Ergonomic design provides excellent balance and lighter weight—both models come in at less than 26 ounces.
- **Fully Multicoated Optics**
Multiple layers of anti-reflective compounds on every glass surface for bright, vivid sight pictures.
- **Enlarged Central Focus Knob**
New, larger size provides incredibly fast subject acquisition.
- **Durable and Protective, Rubber-Armored Coating**
Provides excellent non-slip grip.
- **Thumb-Position Memory Contours**
Provide optimum traction with soft-grip tactile surface.
- **Flip-Down Objective Covers**
Keep lenses from being scratched when not in use.
- **Waterproof/Fogproof**
Nitrogen filled and O-ring sealed.

Rob Evans, outdoor writer and veteran bowhunter.

Low light? Next to no light? Almost dark? The incredible Monarch X 8.5x45 features Nikon's dielectric layered prisms to help you make every last second of legal hunting time count. A lightweight new body design provides excellent balance and the user friendliness of smaller objective models. Long, 20.6mm eye relief and waterproof/fogproof ruggedness makes the Monarch X at home on tough stalks or slow sits in the stand.

Monarch X 8.5x45

Part #7532

The Monarch X 10.5x45 gives you the ideal combination of power and performance. Using dielectric layered prisms for superior light gathering, this larger Monarch X still only weighs in at 25.7 ounces. Long eye relief and click-stop eyecups make viewing a simple pleasure for any user— with or without eyeglasses.

Monarch X 10.5x45

Part #7533

Monarch X Binoculars

Lee and Tiffany Lakosky—co-hosts of “THE CRUSH with Lee & Tiffany”

MONARCH ATB BINOCULARS

No other group of hunting binoculars has such a distinguished record of success or such a large legion of followers as the Monarch ATB™ Series binoculars. From professional hunters to weekend warriors—these waterproof, fogproof tools of the trade are depended on throughout the world for their non-stop performance regardless of the weather or light conditions.

- **Fully Multicoated Lenses & Phase-Correction Coated Prisms**
Lead- and arsenic-free Eco-Glass™ lenses with multicoating and phase-correction coated prisms deliver excellent brightness and resolution.
- **Durable and Protective, Rubber-Armored Coating**
Provides an excellent non-slip grip.
- **Available in Team REALTREE Camouflage** (42mm models)
Using a HIGH DEFINITION® pattern, this ultra-realistic camouflage gives hunters versatile choices for use in areas where green is prevalent.
- **Lightweight, Slim Design**
Provides excellent ergonomics, strength and ruggedness in a package that is comfortable to carry all day.
- **Superior Low Light Performance** (56mm models)
Incredibly large, 56mm lenses offer supreme low-light performance.
- **Quick, Central Focus Knob**
For fast subject acquisition.
- **Multi-Setting Click Stop Eyecups** (32mm and 56mm models)
For a clear and comfortable view, with or without eyeglasses.
- **Precision Aligned Optics**
For extended viewing on the toughest hunts.
- **Waterproof/Fogproof**
Nitrogen filled and O-ring sealed.

Terry & Mark Drury—
co-hosts of Drury Outdoors Dream Season Television
Working together with Drury Outdoors, the Nikon Monarch Dream Season All Terrain Binoculars combine legendary Nikon optics with the features that Mark and Terry believe are crucial to successful hunting. All models are waterproof, fogproof, feature phase-correction coated prisms and fully multicoated lenses and come fully decked-out in Mossy Oak Obsession® camouflage.

King of the Monarch clan, the 56mm should be your choice when every point counts. Rugged enough for any terrain, yet still lightweight, this binocular will help you track down the trophy of a lifetime. Tripod adapter included with 12x56 model.

Monarch ATB 8.5x56, 10x56, 12x56

Part #7517 (8.5x56); #7518 (10x56); #7519 (12x56)

The official binocular of Team REALTREE, this popular line is wrapped in the REALTREE All-Purpose Green HD camo. Be careful where you put them or you'll spend more time looking for your binocular than through your binocular.

Monarch ATB Team REALTREE® 8x42, 10x42, 12x42

Part #7524 (8x42); #7525 (10x42); #7526 (12x42)

The backbone of the Monarch line, this is where the Monarch ATB legend began. We started with bright, high resolution Nikon optics, and built them into an ultra-rugged body. Lightweight construction provides unparalleled strength and ruggedness in a package that is comfortable to carry all day.

Monarch ATB 8x42, 10x42, 12x42

Part #7430 (8x42); #7432 (10x42); #7437 (12x42)

Though smaller and lighter, these 36mm objective Monarchs still pack a punch when it comes to performance, generous field of view and long eye relief. Waterproof and fogproof, these tough little binoculars are the optics of choice for many professional hunters.

Monarch ATB 8x36, 10x36

Part #7513 (8x36); #7514 (10x36)

Nikon and Drury Outdoors have teamed up to create an exciting series of full-size Monarch ATBs. These must-have binoculars combine big, 56mm objective lenses delivering optimum low light performance with classic Monarch ATB durability and Mossy Oak Obsession® camouflage to match the rest of the Drury brothers' gear. Features include long eye relief with twist-out eyecups, fully multicoated lenses and an ultra-rugged waterproof, fogproof body. Tripod adapter included with 12x56 model.

Monarch Dream Season ATB 10x56, 12x56

Part #7521 (10x56); #7522 (12x56)

The mid-size 8x36 and 10x36 Dream Season binoculars offer the best of both worlds—trademark Nikon performance and a very rugged, portable package. Wrapped in Mossy Oak Obsession® for an effective and versatile blending of characteristics in a wider variety of woodland and non-woodland environments, nothing gets you closer to the action.

Monarch Dream Season ATB 8x36, 10x36

Part #7515 (8x36); #7516 (10x36)

Complete specifications on page 52.

Monarch All Terrain Binoculars

A man in a white and black winter jacket and a dark beanie is smiling and holding a large ram with thick, curved horns. The ram is lying on its side in a snowy, mountainous environment. Next to the ram is a piece of outdoor gear, possibly a backpack or a sled, with various items attached to it. The background shows a snowy slope under a clear blue sky.

Tom Miranda—ESPN's "Advantage Adventures" host

TRAILBLAZER™, ACTION EXTREME® & STABLEYES® BINOCULARS

Built for the toughest hunts, this collection of Nikon binoculars has been grouped together to give you waterproof, fogproof performance, full-sized views and legendary Nikon optics in a price range that any hunter can appreciate. From the sleek, Full-Size Trailblazer ATBs to the rugged Action Extreme ATBs to the rock-solid Nikon StabilEyes VR series, these binoculars will keep you hunting in the most extreme conditions.

Trailblazer™ ATB

- **Bright, Multicoated Optics**
Lead- and arsenic-free Eco-Glass™ lenses and multiple layers of anti-reflective compounds.
- **Durable and Protective, Rubber-Armored Coating**
Provide a non-slip grip, wet or dry.
- **Generous Eye Relief**
For a clear and comfortable view, especially for eyeglass wearers. Includes turn-and-slide rubber eyecups.
- **Waterproof/Fogproof**
Nitrogen filled and O-ring sealed.

Action Extreme® ATB

- **Bright, Multicoated Optics**
Lead- and arsenic-free Eco-Glass™ lenses and multiple layers of anti-reflective compounds.
- **Ultra-Rugged, Rubber Armored Body**
Provides a non-slip grip, wet or dry.
- **Unique Click-Stop, Twist-Out Eyecup Design**
Delivers both long eye relief and variable eye relief to customize these binoculars to your eyes and accommodate glasses.
- **Tripod Adaptable**
- **Waterproof/Fogproof**
Nitrogen filled and O-ring sealed.

StabilEyes®

- **Fully Multicoated Optics**
For the ultimate in brightness and resolution.
- **Unique Click-Stop, Twist-Out Eyecup Design (12x32 and 16x32 models)**
Delivers long eye relief for use with or without eyewear.
- **Unique Servo Control System**
Provides a view that is unaffected by either shake or roll, and allows stable viewing even when panning or tilting. 14x40 model includes the exclusive Dual Mode for land or marine viewing.
- **Waterproof/Fogproof**
Nitrogen filled and O-ring sealed.

Fusing top-end optical performance with Nikon ATB ruggedness, and a full-sized view, this binocular can tackle the most extreme conditions. Turn-and-slide rubber eyecups make for clear and comfortable viewing for everyone.

Trailblazer ATB 10x50, Trailblazer ATB 8x42

Part #8221 (10x50), #7531 (10x50 Advantage Max-1 HD), Part #8220 (8x42), #7530 (8x42 Advantage Max-1 HD)

The Action Extreme is a Porro prism style with all the waterproof and fogproof attributes of a Nikon All Terrain Binocular. Nikon's exclusive Eco-Glass™ lenses and prism systems result in a high quality glass that is also lighter in weight. Six different power/objective combinations let you choose the size that matches your hunting style.

Action Extreme ATB 7x35, 8x40, 7x50, 10x50, 12x50, 16x50

Part #7237 (7x35), #7238 (8x40); #7239 (7x50); #7245 (10x50); #7246 (12x50); #7247 (16x50)

Created to meet the need when regular binoculars and spotting scopes become ineffective, the waterproof/fogproof Nikon StabilEyes are being hailed as some of the greatest scouting tools you can own—and for good reason. These binoculars offer hunters rock-steady views with spotting scope-like magnification—and in a surprisingly lightweight, compact package. Powered by AA batteries, included.

StabilEyes VR 12x32, StabilEyes VR 16x32 & StabilEyes VR 14x40

Part #8212 (12x32), #8214 (16x32), #8211 (14x40)

Binocular Tripod Mount fits most binoculars, including Monarch ATB, Action Extreme and Action.

Binocular Tripod Mount

Part #8177 (Black); #8178 (Camo)

One year warranty on electronics.

Complete specifications on page 52 & 53.

Trailblazer, Action Extreme & StabilEyes Binoculars

Don and Kandi Kisky—co-hosts of Scent-Lok's® "Whitetail Freaks"

ACTION® SERIES BINOCULARS

ACTION

Nikon's Action series binoculars pull in game with six fixed power models that deliver massive panoramic views, high quality optics and fast-handling rubber bodies that are easy to grip—even with gloved hands. For the best of both worlds, the Nikon Action Zoom series gives you a wide field of view at low power, and the ability to quickly zoom in when you see something stirring in the brush.

- **Multicoated, Aspherical Eyepiece Lenses and BaK4 Prisms**
Deliver bright, high-resolution images under all lighting conditions. Zoom models do not use aspherical lenses.
- **Fingertip Zoom Controls (Action Zoom only)**
Provide bright images and quick, easy magnification changes.
- **Large Exit Pupils (50mm Lenses)**
Translate into excellent glassing at dawn and dusk, when game is really moving.
- **Available in APG REALTREE Camouflage**
Using a HIGH DEFINITION® pattern, this ultra-realistic camouflage gives hunters versatile choices for use in areas where green is prevalent.
- **Quick, Central Focusing Knob**
For fast subject acquisition.
- **Ergonomic Body Design**
Fast-handling designs are easy to hold and operate.
- **Durable and Protective, Rubber-Armored Coating**
Provides a non-slip grip, wet or dry.
- **Tripod Adaptable**
Tripod adapter included with 16x50 Action and 10-22x50 Action Zoom XL.

Kandi Kisky with a bruiser whitetail.

The ultra-popular Action features enhanced styling and attractive prices, while maintaining the highest of optical standards. Features include multicoated aspherical eyepiece lenses for edge-to-edge viewing, more than ample exit pupils for superior light gathering ability and BaK4 high-index prisms for exceptional brightness and resolution.

Action 7x50, 10x50, 12x50, 16x50
Part #7217 (7x50); #7218 (10x50); #7219 (12x50); #7223 (16x50) Part #7257 (10x50 REALTREE APG)

With its 10-22 power zoom range the Zoom XL offers a wide field of view at the lower powers, plus the capability to move in close for amazing 22x detail with fingertip zoom controls. Includes tripod adapter.

10-22x50 Action Zoom XL
Part #7234

Updated styling and top-notch optics make these binoculars very popular.

Action 7x35, 8x40
Part #7215 (7x35); #7216 (8x40); #7261 (8x40 REALTREE APG)

Nikon's Action Zoom is a mid-sized zoom with a very useful 7-15 power zoom range. 7x provides a wide viewing field and large exit pupil, while 15x provides superb detail in a package that won't weigh you down.

7-15x35 Action Zoom
Part #7227

Keep all of your optics lenses in top shape with these lens cleaning accessories. Liquid lens cleaner in a spray bottle; handy, individually wrapped, take-anywhere moist lens cleaner cloths; and a travel-size lens cleaning kit that includes a spray bottle, moist lens cleaner cloths and a micro fiber cleaning cloth, all in a convenient pouch.

Lens Cleaner Accessories
Part #8174, Spray Bottle; #8175, Wet Cloth; #8176, Kit; #8072, Micro Fiber Cleaning Cloth

Binocular Tripod Mount fits most binoculars, including Monarch ATB, Action Extreme and Action.

Binocular Tripod Mount
Part #8177 (Black); #8178 (Camo)

Complete specifications on page 53.

CJ Davis—Nikon's Senior PR Representative

COMPACT BINOCULARS

Experienced hunters know that a good compact is worth its weight in gold. Whether you're sneaking through dense brush, climbing up a mountain or hauling your trophy back to camp, you know that every ounce counts, yet Nikon Compacts are powerful enough to pick out horns from tree branches and glass big areas with ease.

- **Fully Waterproof/Fogproof**

Nikon Trailblazer and ProStaff Waterproof ATB models are ready for the toughest hunts.

- **REALTREE Camouflage**

Get in close with REALTREE APG camo on REALTREE Outdoors® binoculars and REALTREE Hardwoods Green HD® camo on the Trailblazer.

- **Long Eye Relief**

The Nikon REALTREE Outdoors and Sportstar are excellent choices for eyeglass wearers.

- **Durable and Protective, Rubber Armored Body**

Delivers a fast, sure grip on the Nikon ProStaff Waterproof ATB, Sportstar, REALTREE Outdoors and Travelite V binoculars.

- **BaK4 High Index Prisms**

Extra-high resolution images thanks to these prisms are available on every Nikon compact binocular.

- **Quick, Central Focusing Knob**

For fast subject acquisition.

- **Bright, Multicoated Optics**

Multiple layers of anti-reflective compounds offer excellent brightness and resolution.

Pete Shepley, owner of PSE Archery, with a beautiful trophy buck.

Our smallest ATB has 'successful hunting' written all over it. These little beauties feature the same rugged durability and optical performance as their big brothers in the Monarch and Action Extreme series. Rubber armored for a sure grip.

Nikon ProStaff™ Waterproof ATB 8x25, 10x25, 12x25

Part #7483 (8x25); #7485 (10x25); #7486 (12x25)

Make room for the waterproof/fogproof Trailblazer All Terrain binoculars. They offer versatile viewing with 10x, or 8x magnification and Eco-Glass™ optics housed in a sleek, lightweight body that can fit in a pocket or pack, yet can still handle the toughest weather conditions.

Trailblazer™ Waterproof ATB 8x25, 10x25

Part #8217 (8x25, Black); #8218 (10x25, Black), #8219 (10x25, REALTREE Hardwoods Green HD)

With a modest 8x magnification for normal glassing, Nikon's compact zoom binocular also offers a 3-time zoom capability that allows you to zoom all the way up to 24-power for a true close-in view.

Eagleview Zoom 8-24x25

Part #7496 (Black); #7497 (Silver)

These compact binoculars feature multicoated optics, a durable, carbon fiber shell, a highly ergonomic chassis and robust rubber armor. Aspherical eyepiece lenses (except zoom) allow for a viewing field that is uncommonly flat and clear from edge-to-edge.

Travelite V 8-24x25 Zoom, 8x25, 9x25, 10x25, 12x25

Part #7512 (Zoom); #7508 (8x25); #7509 (9x25); #7510 (10x25); #7511 (12x25)

The REALTREE Outdoors compact puts multicoated optics and REALTREE APG camo in a pocket-sized package that begs to be taken with you on every hunt. Fold-up, roof prism design makes this a great addition to every hunter's optics arsenal.

REALTREE Outdoors 10x25

Part #8230

This fold-up, pocket-sized roof prism compact is at home whether tracking, trailing or stand hunting. It incorporates long eye relief, precisely cut lens and prism glass, and multicoated optics for crisp, sharp and comfortable viewing.

Sportstar 10x25

Part #8202

Complete specifications on page 53.

Compact Binoculars

Wade Middleton—Host of TV's
"Fishing and Hunting Texas"

NIKON FIELDSCOPES & SPOTTING SCOPES

FIELDSCOPES

The award-winning performance of the Nikon Fieldscope series is beyond compare in the world of optics. For spotting at extreme ranges or in poor light, nothing matches their ability to pull game out of their background and reveal every detail in optimum contrast, edge-to-edge resolution and brilliant color. Waterproof and fogproof construction will satisfy even the toughest critics.

FIELDSCOPES

- **Extra-Low Dispersion Glass (ED)**
Nikon ED glass delivers the utmost in edge-to-edge sharpness, detail resolution and clear, true color images.
- **High Grade Optics and Full Multicoating Technology**
Carefully cut and polished glass is fully coated in multiple layers of anti-reflective compounds for bright resolution and brilliant color while scouting.
- **Sliding Sunshade and Vue-Thru Case**
(82mm and 60mm models)
Protects your investment in any situation.
- **Straight and Angled Body Versions**
- **Waterproof/Fogproof**
Nitrogen filled and O-ring sealed.

When you're in the market for an unmatched full-sized spotting scope, look no further than Nikon's amazing Fieldscope 82mm ED. With a massive 82mm objective lens, this is the ultimate target, varmint, and hunting scope.

Fieldscope 82mm ED

Part #8332 (Straight Body w/25-75x zoom eyepiece);
#8337 (Angled Body w/25-75x zoom eyepiece)

Nikon's Fieldscope III 60mm is a waterproof, fogproof spotter that delivers the ideal degree of optical performance and flexibility. The Fieldscope III 60mm is available in ED (Extra-low Dispersion) glass versions for the utmost in edge-to-edge sharpness and detail resolution.

Fieldscope III 60mm, 60mm ED

Part #8330 (Straight Body w/20-60x zoom eyepiece); #8336 (Angled Body w/20-60x zoom eyepiece); #8331 (Straight Body, ED w/20-60x zoom eyepiece); #8340 (Angled Body, ED w/20-60x zoom eyepiece)

The Fieldscope 50mm ED is incredibly compact and lightweight, perfect for tucking into your pack for all your hunting adventures. Nikon ED glass delivers extremely bright, sharp, true color images.

Fieldscope 50mm ED

Part #8320 (Straight Body w/13-30x zoom eyepiece); #8321 (Angled Body w/13-30x zoom eyepiece)

SPOTTING SCOPES

Spot and stalk hunting for big game, long distance varminting or targets during sight-ins—Nikon's extensive selection of spotting scopes provides the perfect addition to your hunting kit. The ProStaff™ Waterproof 82mm and 65mm and Spotter XL II 60mm are all available in Team REALTREE camo. Any of these scopes will save you time and legwork on the hunt.

- **Bright, Fully Multicoated Optics**

Feature lead- and arsenic-free Eco-Glass for high resolution images and increased light transmission. Spotter XL II features phase-correction coated prisms and fully multicoated lenses.

- **ProStaff™ Waterproof Outfits**

Include straight body, Vue-thru case, zoom eyepiece and full-size tripod. Camo outfit also includes window mount.

- **Spotter XL II Outfits**

Include Spotter XL II in fitted case, compact tripod and carry case for the set. Team REALTREE outfit includes scope, fitted case, camo tripod and padded camouflage case with shoulder straps that doubles as a backpack.

- **Super-Fast Bayonet Eyepiece**

(ProStaff Models)
Perfect to scout wide areas with ease.

- **Zoom Eyepieces**

With power zoom ranges, you'll have a wide field of view at the lower powers, plus the capability to move in close for amazing detail with higher powers.

- **Lightweight, Ergonomic Designs**

Easy-to-pack and easy-to-use.

- **Waterproof, Fogproof**

Nitrogen filled and O-ring sealed.

The ProStaff Waterproof 82mm spotting scope features a large objective lens for the brightest field of view, 20-60x zoom eyepiece, as well as straight or angled body versions. O-ring sealed and nitrogen-purged for waterproof, fogproof performance. A sliding sunshade and removable peep sight are standard.

Nikon ProStaff Waterproof 20-60x82mm

Part #8311 (Straight Body w/ zoom eyepiece); #8312 (Angled Body w/ zoom eyepiece); #8313 (Straight Body w/zoom eyepiece in REALTREE Hardwoods Green HD); #8317 (Outfit); #8319 (Outfit in REALTREE Hardwoods Green HD)

Compact, lightweight and tough, the ProStaff Waterproof 65mm makes life easier on hunters going deep into the woods. Equipped with a sliding sunshade and removable peep sight, the waterproof/fogproof scope is available in straight or angled body versions.

Nikon ProStaff Waterproof 16-48x65mm

Part #8308 (Straight Body w/zoom eyepiece); #8309 (Angled Body w/zoom eyepiece); #8310 (Straight Body w/zoom eyepiece in REALTREE Hardwoods Green HD); #8314 (Outfit); #8316 (Outfit in REALTREE Hardwoods Green HD)

A complete line of tripods and window mounts are available to steady your spotting scope or high powered binocular. Realtree Hardwoods Green HD camo and standard finishes.

Tripods and Window Mounts

#822 Compact Tripod; #851 Compact Camo Tripod; #847 Full-Size Tripod; #7074 Full-Size Camo Tripod #848 Bosch Full-Size Tripod; #849 Bogen Pro Tripod w/ Pistol Grip; #7070 Window Mount; #7071 Camo Window Mount

This Spotter XL II comes through with a lightweight roof prism design and a powerful zoom eyepiece that delivers 48x magnification once you've found your quarry. Includes increased eye relief, a durable and protective rubber body coating, a sliding sunshade with sighting notch and, like all spotting/fieldscopes, a 25-Year Warranty and Nikon's No-Fault Repair/Replacement policy.

Spotter XL II Outfit Waterproof 16-48x60

Part #6892 (Outfit)

Team REALTREE Spotter XL II Outfit is the ultimate kit for long days in the field. Wrapped in Bill Jordan's REALTREE Hardwoods Green HD camo, this camo version shares all the attributes of the Spotter XL II for easy scouting.

Team REALTREE 16-48x60 Spotter XL II Outfit

Field|Recon
TEAM

- Quality, water resistant construction
- Silent brushed fabric with double stitching throughout
- Padded Spotting Scope/Digiscope sleeve inside pack
- Water resistant digital camera pocket
- Outer pocket for carrying extra binocular
- Pockets for optics cleaning accessories
- Silent zippers on compartments
- Stowable waist belt holds detachable padded rangefinder pouch
- Rangefinder pouch can be relocated to a belt or the outside of the Pack/Interior loop for attaching Rangefinder Tether
- BlackHawk's patented S.T.R.I.K.E.® system allows hunting-specific pouches and organizers to be attached as desired for the ultimate in customization
- Special mesh exterior pockets with quick clip straps hold tripod or shooting sticks
- Unique, quick-connect binocular attachments on padded shoulder straps allow easy carry and use of binoculars while wearing the pack
- Shoulder straps feature non-slip HawkTex™ to keep over-the-shoulder slings in place
- Exterior bungee system on upper pocket for storage of extra clothing layers, etc.

The first backpack designed from the ground up specifically for hunting optics. Engineered by Nikon and BlackHawk® Products Group, a leader in equipping US special operations personnel, the pack organizes, protects, and safely transports all vital hunting optics and other hunting gear in the field. With 1,950 cubic inches of interior space, including multiple compartments specifically designed for optics care and accessibility, the Field Recon Team optics pack also offers numerous features that make it a truly field-worthy hunting companion.

Nikon Field Recon Team Optics Pack

Part #8179 (Field Recon Optics Pack 1950 Foliage Green);
#8180 (Field Recon Optics Pack 1950 ADVANTAGE Max1);
#8181 (Field Recon Optics Pack 1950 Mossy Oak)

Technology for the Long Shot!

"ENTER, HUNT, WIN"

Nikon's BDC Slam is a "Slam" of any four game animals (including varmints and predators) of your choice — taken within a 12-month period — all using Nikon riflescopes with the Patented BDC reticle (use either the rifle BDC, the muzzleloader BDC 250, the SlugHunter BDC 200 or the Encore handgun BDC reticle — or a combination).

To enter the challenge, simply register at www.nikonhunting.com/bdc-slam.html and set your goal of the animals that you're hunting for your Slam. As you take your trophy, get a photo of it showing you and your Nikon scope and upload it together with information on the hunt.

By registering, you will receive a free gift from Nikon — once you complete the slam, you will receive an award gift as well — commemorating your BDC Slam achievement. All participants will also be entered into random drawings throughout 2008/2009 for chances to win a "Slam" of four Nikon hunting optics — Monarch 2.5-10x42 BDC Rifle scope, Monarch 8x42 ATB Binocular, RifleHunter 550 Laser Rangefinder and ProStaff 16-48x65 Team REALTREE Spotting Scope Outfit.

www.nikonhunting.com/bdc-slam.html

This reusable anti-fog cloth utilizes a breakthrough dry compound that stops condensation from forming on lens surfaces. Each 6"x7" cloth is good for multiple applications. Sold in 3-packs.
