In alcuni casi le macchine sono raffigurate sprovviste delle protezioni per consentire una migliore visione degli organi interni.

In some cases the machines are pictured without protections in order to allow a better view of the internal parts.

Pour permettre de mieux voir les organes internes des machines, celles-ci sont parfois représentées sans protections.

En algunos casos las máquinas aparecen representadas sin protecciones para permitir una adecuada visión de sus órganos internos.

In einigen Fällen sind die Maschinen ohne Schützelemente dargestellt, damit die inneren Organe besser zu sehen sind.

Cambio a 2 velocità - 2 speed gear box

PdF 1000 = I 225 RpM - II 280 RpM

- Slitte di appoggio laterali
- Griglia di separazione
- Cofano livellatore posteriore
- Rullo livellatore a griglia ø 400 mm
- Trasmissione laterale a doppia catena (+20 cm ingombro)
- Albero cardanico protetto con frizione
- Regolazione profondità di lavoro manuale con viti
(Cofano livellatore posteriore regolabile con viti)
- Adjustable lateral slides
- Separation grid
- Rear levelling bonnet
- Grid roller ø 400 mm
- Lateral double chain transmission (+20 cm of width)
- Cardan shaft with clutch
- Manual working depth adjustment with screws
- Adjustable rear hood with screws

ACCESSORI DA RICHIEDERE ALL'ORDINE - ACCESSORIES AVAILABLE ON REQUEST

- Accessori da richiedere all'ordine
- Rullo packer ø 323
- Albero di trasmissione con limitatore automatico a camme
- Impianto idraulico regolazione cofano livellatore posteriore
- Impianto idraulico regolazione profondità lavoro
- Sistema di raffreddamento olio riduttore centrale (consigliato per trattori oltre i 200 hp - 147 kw)
- Packer roller
- Cardan shaft with automatic safety clutch
- Hydraulic system for levelling rear bonnet
- Hydraulic system for working depth adjustment
- Central gearbox oil cooling system (suggested for tractors with more than 200 hp - 147 kw)

HE190	190	60/130	44/95	490

I trincia a catena hanno un bassissimo assorbimento di potenza (meno 50% dei trincia tradizionali) e la possibilità di lavorare in presenza di moltissima pietra.

The chain shredders have a very low power absorption (-50% compared to traditional shredders) and the possibility to work in the presence of a lot of stone.

Las desbrozadoras de cadena tienen una absorción de potencia muy baja (-50% de las desbrozadoras tradicionales) y la posibilidad de trabajar en presencia de mucha piedra.

Les broyeur à chaîne ont une très faible absorption de puissance (-50% des broyeur traditionnels) et la possibilité de travailler en présence de beaucoup de pierres.

Mulcher- Arbeitswerkzeug. Ketten haben eine sehr geringe Leistungsaufnahme (minus 50% der traditionellen Mulcher) und die Möglichkeit, im Boden mit viel Stein zu arbeiten.

Ideali per frutteti e uliveti di ampie estensioni, anche coltivati in bauli. Arrivano a lavorare fino a 200 cm rispetto al centro del trattore.

Ideal for orchards and olive groves of large extensions also cultivated in beds. They can move up to 200 cm from the center of the tractor.

Ideales para huertos u olivares de grandes extensiones, también cultivados en camas. Trabajan hasta 200 cm del centro del tractor.

Idéaux pour les vergers et les oliveraies de grandes extensions, également cultivés en lits. Ils travaillent jusqu'à 200 cm du centre du tracteur.

Ideal für große Obstgärten und Olivenhaine, die auch in Aussaatbett angebaut werden. Sie arbeiten bis zum 200cm von der Mitte des Traktors entfernt.
